

Correspondence

1 Motueka Rotary Club

As you will see from the attached letter, the Club is investigating fundraising for Christmas lights that could be used on a large tree in the centre of Motueka.

A copy of the letter has been forwarded to the Parks and Reserves Department for their comments on the use of a tree near the Museum and the type of lights that would be required.

Recommendation

That subject to the Parks and Reserves agreeing to the proposal that the Rotary Club be advised that the Board supports their project.

2 Public Refuse Bins

The attached letter and photographs provide an alternative for Tasman District Council to consider.

Recommendation

That the information be referred to the Engineering Department with a recommendation that they look at the feasibility of introducing this type of twin-bin system in Motueka as the present bins are replaced.

3 Grey Power Motueka

The attached letter covers the footpath in Thorp Street, parking in Deck's Reserve and the report to the June 2007 meeting by the Chief Fire Officer.

Attached is the Engineer's response to the Thorp Street footpath issue and if possible, comments on the other two matters will be provided at the meeting.
