

TAKAKA FRESHWATER AND LAND ADVISORY GROUP

AGENDA

9.30AM – 3.00PM / FRIDAY 22 AUGUST 2014 / TAKAKA FIRE STATION

Purpose of meeting: Gain a better understanding of the Takaka fresh water resource
Project Management - Agree work plan for remaining 2014 meetings
Preparatory work for meeting three on values: what we are managing the catchment for

9.30 AM Mihi/Welcome

- Outline of meeting purpose and approach
- Any reflections on last meeting/ brief updates

9.45 The changing Takaka Catchment – from your perspective.

Break-out group discussions on past and potential future trends:

- How has land use changed over time in the valley? Why?
- How has water usage changed over time in the valley? Why?
- How has the valley's economy changed through time? Why?
- How has the social make-up of the valley changed? Why?
- How have the cultural characteristics of the valley changed through time? Why?
- How have the recreational uses of the valley changed over time? Why?
- What have been, or are, the implications of these changes for management of the Takaka catchment and its water?

10.10 The changing Takaka catchment – from your perspective /...

Group report back and discussion

- What might future trends and implications be?

**10.30 The changing Takaka Catchment – a science perspective:
a description of the resource and its existing state, relevant historical trends, past and emerging pressures, & any areas of concern from a science perspective**

- Land features, soils and use – Andrew Burton (30 mins)
- Point source discharges - Lisa McGlinchey (10 mins)

11.15 Kapu Ti/Break
