

WAIMEA PLAINS FRESHWATER AND LAND ADVISORY GROUP

Agenda Meeting 9

19th August 2015 - 9.30am - 3.30pm

Heaphy/Wangapeka Rooms

Objectives:-

- Working out nitrate leaching impacts on nitrate concentrations in water
- Developing understanding about options for management responses

AGENDA

9.30am Session One -

- Issues arising since last meeting
 - Report on feedback on objectives

9.50am Session Two -

- Looking at the modelling results;
 - Presentation of updated data and examine role of changes to area of market garden (ADF)
 - Examine actual and modelled land use changes/nitrate losses and impacts on groundwater and springs water nitrate concentrations (ADF)
 - Consider sensitivity of water quality (Nitrate concentration) to land use change to market gardens

10.45am Tea/coffee break

11.00am Session Three -

- Consider approaches to managing land use change/nutrient leaching management
 - Policy options (MAB)
 - Group discussion

12.30pm Shared Lunch (to be provided)

1.00pm Session Four

- Continue options discussion

2.30pm Session Five-

- Timeline and next meetings
- Public engagement
- Other business

3pm Finish.
