

Takaka FLAG – Update to EPC

Key points and information to provide

18 March 2016

Purpose of workshop

1. To update EPC on **progress** to date (2yrs worth in ~4hrs)
2. For EPC to gain an **understanding of the issues** identified by FLAG in the Takaka Water Management Catchment
3. For EPC to gain an **understanding of FLAGs approach** ahead of plan change drafting
4. For FLAG and EPC to discuss **how the remaining process can be best supported** to achieve an effective output

Do you all agree?

Suggested outline of day
