

Motueka Community Board Meeting 16.04.19

From: Ian Williamson

1/ As Whakatu Incorporation views Motueka as their hub and are already planning a \$10 million development on the Matae site, could a suggestion be made for them to consider a by-pass road as a memorial roadway and perhaps have this leading onto a new bridge at a later stage. This roadway would hasten the reducing of the current heavy transport congestion on High Street.
