CONDITIONS FOR THE DIRECT DISPOSAL OF SPECIAL WASTES AT THE TASMAN DISTRICT COUNCIL EVES VALLEY LANDFILL

PLEASE READ CAREFULLY

1. The applicant must fully complete the declaration section of the Application and Manifest.
2. **A copy of the Application and Manifest with a fully completed and signed Acceptance Assessment together with a weighbridge certificate must accompany the delivery to the Eves Valley Landfill and be handed to the Landfill Operator. Waste without the accompanying paperwork will be rejected.**
3. Applications for disposal must be received a minimum of three (3) working days prior to delivery of the waste to the landfill.
4. On receipt of a completed and duly authorised Manifest the Generator or the Applicant shall contact the Landfill Operator to arrange a time and date for delivery of the waste to the landfill. (As a non public access landfill Eves Valley does not operate on a set opening schedule)

Contact the landfill operator (027 449 5124) at least 24 hours prior to intended disposal.

5. Possession of an authorised Manifest verifies only the acceptability of the waste for landfill disposal in terms of its content. It does not confer on the Disposer any right to deliver the waste to landfill without consultation with the Operator.

The operator has the sole discretion to reject waste on the grounds of its consistency, specify delivery times to fit in with normal daily operations, or, where multiple loads are involved, restrict the number of deliveries per day.

6. Special Waste deliveries will not be accepted on Saturdays, Sundays or Public Holidays.
7. Waste disposal fees will be invoiced to the Applicant by Tasman District Council. Where special handling or survey location of the disposal site is required the costs involved shall be charged to the Applicant in addition to the disposal fee current at the time of delivery.
8. Vehicles transporting special waste must comply with all appropriate Transport Regulations including those that may specifically apply to constituents of the waste being transported.
9. In signing the Generator Declaration the Applicant states that all information contained in that section of the Manifest is true and correct in every respect and that no material information (including any known or suspected hazards) has been omitted. The Applicant acknowledges that the Tasman District Council, or its appointed representative, relies entirely on the accuracy of such information in exercising its judgement on the appropriate methods of treatment and disposal and the associated risks.

The Applicant also accepts full liability for any loss of damage, of whatsoever kind (including direct, indirect, special or consequential loss) arising as a result of any inaccuracy in or omission from the information provided by the Applicant and agrees to fully indemnify the Tasman District Council or their appointed representative for any claims which may be made against either party arising from such inaccuracies or omissions.

GENERAL INFORMATION

1. Eves Valley Landfill, under the terms of its Resource Consent, is not open to the general public and only waste accompanied by a Direct Disposal Manifest will be accepted as a direct delivery.
2. Eves Valley Landfill does not accept liquid wastes. Waste must be of 'spadeable' consistency.
3. Hazardous wastes are not accepted at Eves Valley Landfill although waste containing hazardous material within prescribed limits may be accepted.
4. Asbestos waste is accepted for disposal at Eves Valley Landfill but the disposer may be liable for the cost of surveying the exact location of the disposal area within the landfill in addition to the normal disposal fee.
