Hi again Daniel,

I have reviewed the report provided. CAA has no further comment on the contents, as it is a report compiled by a consultant for your purposes, and it appears that the issues are mainly around interpretation of the District plan disconnect. Guidance on Civil Aviation requirements for OLS is clearly laid out in AC139-7. We do not have control of, or can comment on Councils own OLS or height restrictions in their district plan.

We will keep you informed of our progress on your other questions.

Kind regards,

Hamish

Hi Daniel,  
Thanks for your email. We were also aware that Mike Haines was drafting a report so thank you for forwarding it on. We can have a look, and could possibly comment on those points specific to CAA as applicable.  
Regards  
Hamish

Hi Hamish,

thank you for your email. No worries, at all. I am glad that you are looking into this. However in the meantime we have also got in touch with Mike Haines and he has provided us with his report on this matter (please find attached). Could you please let me know if you agree with his conclusion? That would be much appreciated.
