

Approximate length of runway resulting from inclination parameter set at 1:50 and minimum 4.5m clearance to road carriageway maintained

- Notes:
1. This plot has been prepared for illustrative purposes only.
  2. Contour levels shown refer to heights above end of runway
  3. Topographical variations have not been accounted for on this plan
  4. Additional survey would be required to determine accurate ground levels to account for variations in topography.
  5. This plan should be used for discussion purposes only.
