Subject: Community boards championing localism  
To:

Tēnā koutou,

**Community boards championing localism**

LGNZ is seeking New Zealanders' views on a question that goes to the heart of our democracy, how do we give citizens and their communities a greater say in how their community develops. It is a conversation about localism. To facilitate this conversation LGNZ has recently published a discussion paper "Reinvigorating Local democracy: the case for localising power and decision to councils and communities" which sets out the rationale for decentralising and seeks the views of readers.

The discussion paper can be downloaded from the localism webpage at <https://localism.nz/>

Community boards, as our more grassroots form of government, are key to the localism agenda, therefore we are very keen to get your views about what should be devolved and what a less centralised country might look like.

We look forward to receiving your feedback on the discussion document and any other ideas you would like to share. The deadline for comment is mid-December and, if available, we are happy to speak to community groups or community boards on the localism agenda.

Please don't hesitate to get in touch.

Ngā mihi

On behalf of

**Secondary Prize Giving 2019**

Tēnā koe

Collingwood Area School warmly invites you to take part in our annual celebrations of excellence in rural education. There are several aspects to this celebration and we would be delighted if you would consider one or all of the opportunities.

We would like to invite you to the Senior Prize Giving for Year 8 - 13 students, which will take place on Friday 29 November 2019 in the Collingwood Area School Hall starting at 11.00 am. This is our biggest celebration of student achievement and efforts across the year, over a very wide range of disciplines.

In order for us to be able to award prizes to our students, we look to local businesses and organizations for financial support for our Prize Giving ceremony. This ceremony represents significant milestones for Collingwood Area School students. It enables us to celebrate who we are and what we are grateful for, including the innovative collaborations we make with local businesses and stakeholders.

Please see the next page for possible sponsorship options which we would love for you to consider. We look forward to your positive response and would be grateful to hear from you before Friday 27 September 2019.

On behalf of our students, staff and community thank you in advance for supporting Collingwood Area School.

Ngā mihi nui nā,

**TDC  
Voting System  
POLL**

**HAVE YOUR SAY!!**

Tasman District Council voted to keep FPP (First Past the Post).

**However, voters have the right to decide what voting system we use – FPP or STV (Single Transferable Vote).**

STV is considered to be a fairer system.

Voters are able to rank their choices and are not restricted to one tick.

**The goal is to elect a Council which looks more like the communities it represents.**

**Questions?**

More info about STV: [www.stv.govt.nz](http://www.stv.govt.nz)

*and from*

[lizthomaspost@gmail.com](mailto:lizthomaspost@gmail.com)

**INFORMATION SHEET: STV/FPP and 2019 POLL****Q: How does a Single Transferable Vote (STV) election work?***Answers:*

- 1 It's a bit like several voting steps are rolled into one.  
*(Think of the step by step ballots that eventually choose the Pope, or the leader of the Conservative Party (UK) or the National Party (NZ). In effect the least popular candidate is eliminated at each step, in order to clearly identify the most popular candidate.)*
- 2 Numbered voter preferences in STV provide an equivalent of step-by-step ballots. Voters number their choices (1, 2, 3 ...) and as few as they wish (but at least 1 to be valid).
- 3 Candidates have to achieve a certain quota (proportion) of votes cast to be successful. The quota is calculated by a formula based on:
  - > the total number of votes cast
  - > the total number of candidates
  - > the number of vacancies
- 4 Candidates with the least votes are eliminated as part of the step-by-step calculations.
- 5 Current ward and community board systems are not affected; the only change is how successful candidates are selected.

**Q: Why is it called Single Transferable Vote?***Answers:*

- 1 **Single Vote:** Each voter votes only once, and has only one vote. Voters also indicate their preferences for more than one candidate, by numbering them.
- 2 **Transferable:** When several elimination steps are needed to identify a successful candidate, numbered preferences means that votes can be transferred--as indicated by the voter.

~~~~~

**FACTS about the 2019 Tasman District FPP/STV POLL**

- The process and options are covered by New Zealand local government legislation.
- Holding a poll is an option in the law; Tasman councillors could have chosen it in 2017; Whanganui District Council decided to hold a poll this year.
- STV is being adopted by a growing number of New Zealand councils (including Marlborough) and all health boards.
- Because electors appoint and employ their council representatives, it is appropriate that the electors should choose the voting system.
- STV votes are more complicated to count than FPP, but computers now easily count them.
- Candidates have to achieve a true majority to be elected under STV.
- STV results can't be strategically affected, e.g. by candidates splitting the vote
- Using STV would simplify our voting papers and avoid confusion with the current tick/numbering mix in Tasman.
- No electoral system is perfect; all have advantages and disadvantages.
- The decision of the poll (either way) will take effect in 2022.

Tabled Document  
GBCB 19-8-13

**TO: Golden Bay Community Board**

**DATE: Tuesday 13 August 2019**

**FROM: Golden Bay Shared Recreation Facility**

My name is Sara Chapman and I am the current Chairman of the community organisation known as GBSRF which is a coalition of clubs and groups under the Incorporated Society umbrella of the Golden Bay Shared Recreation Facility.

I have been attending Community Board meetings for four years to keep board members, Councillors and public attendees informed of progress with the construction and operation of, and fundraising for, Rec Park Centre.

While GBSRF is contracted by Council to manage Rec Park Centre and to organise recreation programmes and community events, and under those contracts are required to formally report to the TDC Community Development committee when invited, we have always chosen to address this board with updates. In September, Laura will address you at the final Community Board meeting.

Golden Bay Recreation Park is complicated because it is reserve land with the users spread around the park. There are buildings owned by TDC and there are a number of buildings that are not owned by TDC but situated on the reserve land. And now there is Rec Park Centre which is a public facility owned by TDC and managed by GBSRF. GBSRF is the PCBU for this building and the land around the immediate footprint.

GBSRF is not the Recreation Park Committee and it has become evident that even though you are elected representatives you may not be clear of the difference between the Centre and the Park.

Please allow me to explain.

Golden Bay Recreation Park is under the authority of Tasman District Council and Golden Bay Community Board and falls within the Community Development portfolio. There are two separate strands, the Centre, which nominally includes the outdoor Netball Courts and the Reserve and Fields.

Let us follow the first thread.

GBSRF holds the Facility Management Contract and the Recreation Contract. The governance board is responsible for legal, financial, audit and risk, health and safety and employment policy. The User Council comprised of eleven representatives from our member clubs and groups is responsible for operational management working directly through our two key staff. Our constitution established a seat for a Golden Bay ward councillor ex-officio on the board with the Golden Bay Chair ex-officio on the User Council. These seats are reserved and occupied at your discretion.

The contracts enable us to employ two permanent part-time key staff, one for each contract and together they approximate one Full Time Employee. The TDC staff of Martin Sutton and Lani Evans deal directly with Laura and Abbie.

And because our staff maybe on-site when Glenn Thorn visits, he talks to them.....BUT Recreation Park is under a different Council thread. Starting with Parks and Reserves to the Recreation Park Committee of Roger Tait, Noel Baigent, Wayne Packard and Kevin Winter, with input from User Council (Park Users only) which is A&P, Football, Rugby, Cricket and Tennis.

This is the actual organisation structure. As you see GBSRF has a limited but defined role. Outside of governance, the board volunteers continue to fundraise for ongoing resources for clubs, groups and the community. In the last two years the board has raised an additional \$95,000 which has been invested in community assets.

The bare truth is that the Centre is run by our Golden Bay GIANTS. And that is the way it should be.

## New Zealand Biosecurity Awards – judging has begun.

We just wanted to give a shout out to everyone who took the time to enter this year's Awards – thank you.

We've sent some hefty packs of entries away to our judging panel to read through and assess. They really do have their work cut out this year. We received more than 70 entries and have been really inspired reading about all the exciting and diverse biosecurity actions that are happening across Aotearoa.

To all those who entered – good luck and thanks for doing all that you do to protect New Zealand's special spaces and places from the effects of pests and disease. We think you're all biosecurity champions!

You'll hear from us again on 24 September, when we announce the Award finalists. Tickets to the Awards dinner, being held on 4 November in Auckland, will also go on sale then.

If you have any queries in the meantime please contact us:

Hi Victoria

I would like to let you know that the September Board meeting will be advertised in the Upcoming Events section of the GB Weekly the week before the meeting. Staff will also ensure that the meeting is advertised on the footpath sandwich board of the service centre for a few days prior to the meeting. The meetings will continue to be advertised in the Newsline and on the Council website.

Kind Regards  
Emma
