

Application for Registration on the Waiting List To Take and Use Water

To: Customer Services Manager
Tasman District Council
Private Bag 4
Richmond 7050

FOR OFFICE USE ONLY

Registration No. _____

Fee: _____

Customer No. _____

PART A

Contact Details

Pursuant to Part V of the Tasman Resource Management Plan, the undersigned hereby applies to register on the waiting list to take, use or divert water in accordance with the details below:

1.* Applicant(s) Details

Company Name *(if applicable)* _____

First Name(s): _____ Surname: _____

Contact Person Details *(if applicable)*

Name of Contact Person: _____

Postal address: _____

Street address *(if different from above)*: _____

Phone number(s):

Business: _____ Private: _____

Mobile: _____ Fax: _____

E-mail address: _____

2. Consultant/Agent Details *(if applicable)*

Consultant/Agent Name: _____

Postal address: _____

Phone number(s):

Business: _____ Private: _____

Mobile: _____ Fax: _____

Name of Contact Person: _____

E-mail address: _____

3. All correspondence relating to this application should be sent to: *(tick one only)*

Applicant Consultant/Agent Other *(specify)* _____

4. Indicate whether this application is for: *(tick one)*

(a) A new permit

(b) A replacement water permit for increased quantities

If you have ticked 'b', give the reference number of the water permit consent _____

INFORMATION REQUIRED

PART B

Description of Proposal

Enclose with your application a Council (GIS)-generated aerial photo showing the location of the point of take (actual or proposed), the location of nearby bores (including those on neighbouring properties), rivers or streams, the area in which the water is to be used, local named roads, names of neighbouring property owners, property boundaries and other relevant features, e.g. buildings, fences. Council's Customer Services Officers will provide this aerial photo on request.

1. Site where water is to be USED (or DIVERTED to/from)

(a) Nature of Tenure of Applicant(s): *(Tick as appropriate)*

Owner Lessee Prospective purchaser

Other *(specify)* _____

(b) Legal Description (as shown on Rate Demand) of land where water is to be used

Lot _____ DP _____ CT _____

Other *(specify)* _____

(c) Property valuation number _____

(d) Total property area (ha) _____

(e) Address/Location _____

2.* If the site from which the water is to be TAKEN is not on the above property, please indicate:

(a) Name of Owner: _____

Address/Location: _____

(b) Legal Description of land where take point is situated (actual or proposed):

Lot _____ DP _____ CT _____

Owner Lessee Prospective purchaser

(c) Property valuation number _____

3.* Map reference of take point

[Use NZMS 260 (1:50,000)] If unknown, this can be left blank for Council staff to complete provided the point of take is accurately located on the aerial photo.

4.* Source of Water

- Existing Bore
 Proposed Bore
 Other Bore (e.g. well, sump)
 River

For Bores:

Date constructed (if existing): _____ Diameter (mm) _____

Bore Number (WWD) (if known): _____

Note: GL refers to 'ground level'

Depth (metres) from GL to bottom of bore/well: _____

What water management zone water will be taken from: _____

5. Purpose for which water will be taken and/or used (Tick as appropriate)

- Irrigation
 Industry
 Municipal supply
 Stock
 Household
 Storage
 Frost Protection
- Other (specify) _____

6. If use is for IRRIGATION, state the area and crop to be irrigated:

Pasture	Horticulture	Sportsfield/Golf course	Glass/plastic house/nursery	Other
_____ ha	_____ ha	_____ ha	_____ ha	_____ ha

For crop and horticultural irrigation, state principal crops and area of each irrigated and typical (summer) irrigation period:

7. Quantities of water applied for

(a) Maximum hourly rate _____ cubic metres per hour

(b) Maximum daily quantity _____ cubic metres per day

(c) Maximum weekly quantity _____ cubic metres per week

If the point of take is a bore:

Has your bore been tested and shown to sustain the full pumping rates you are applying for?

- Yes No

Please provide evidence or reasons for your above answer, copy of any pump test report, etc.

8.* If water is to be used for INDUSTRY, state the type of industry, and the process in which water is used:

9. If water is to be used for MUNICIPAL SUPPLY, state population supplied:

10. If water is to be used for STOCK drinking water, state number and type of animals:

11. If water is to be used for HOUSEHOLD use, state number of houses and average number of people within each household:

Part D: Assessment of Effects of the Proposed Activity on the Environment

The following are the minimum bore spacings from Figure 16.12A TRMP.

Bore Spacings		
Water Management Zones	Depth of existing bore (metres)	Minimum Bore Spacing (metres)
Moutere Zones		
Eastern, Southern, Coastal and Western Groundwater Zones	under 120	300 between bores regardless of the depth of the proposed bore
	over 120	300 between bores if the proposed bore is less than 120 metres deep
	over 120	600 between bores if the proposed bore is more than 120 metres deep
	Any	200 between bores where rates of take are no more than up to 5 cubic metres per day
Motueka/Riwaka Plains Zones		
Central Plains, King Edward and Riwaka Zones	Any	75 between bores
Hau Plains, Umukuri and Swamp Zones	Any	150 between bores
Waimea Zones		
LCA, UCA, Hope and Eastern Hills Zones	Any	100 between bores and at least 100 from the Waimea River
Reservoir and Waimea West Zones	Any	50 between bores and at least 100 from the Waimea or Wairoa Rivers
Delta Zone	Any	50 between bores and at least 100 from the Waimea River
Wai-iti Zone	Any	50 between bores and at least 100 from the Wai-iti River

Bore Casings		
Moutere Zones Bore Casing Requirements for New Bore		
Southern and Coastal Zones within 500 metres of MHWS*	under 120	60m casing
	over 120	120m casing
Eastern and Western Groundwater Zones Coastal and Southern Zones more than 500 metres from MHWS	under 120	30m casing
	over 120	120m casing

*MHWS – Mean High Water Springs

PLEASE READ THIS PAGE BEFORE COMPLETING THIS REGISTRATION FORM ADDITIONAL INFORMATION MAY BE REQUIRED

Registration on a waiting list is required if a person seeks water from a water management zone that may be fully allocated. Registration on a waiting list grants priority in time in accordance with Policy 30.2.6 of the Tasman Resource Management Plan (TRMP). When water becomes available in a fully allocated zone, persons on a waiting list will be invited to apply for a water permit in order of the waiting list.

This registration does not constitute a water permit application. This registration form must be fully completed to satisfy Council's requirements for the registrant's name and details to be added to the Council's waiting list for water. It is also important that the registration information demonstrate to Council a need for water.

Waiting list - is a written list maintained by Council of registrations that are:

- (a) lodged on the list in priority in time order; and
- (b) accompanied by information on need for and amount of water taking and use; and
- (c) made by persons seeking to have authorised water takes, in water management zones where there may be full allocation of available water.

Every proposed irrigation bore in all deep Moutere groundwater zones (ie. the Moutere Eastern, Western, Southern and Coastal Groundwater Zones) must comply with the setback distances from existing bores and casing specifications specified for these zones in Figure 16.12A TRMP. The purpose of this requirement is to avoid excessive localised reductions in bore yields due to pumping drawdown effects.

Council will generally decline to register new bores where setback and casing requirements for the Moutere groundwater zones are not met, except in exceptional circumstances.

Completing this form

In providing as much information as possible at this stage, you will reduce the likelihood of any delay in the processing of your registration.

Send the completed form, together with any additional information required and the correct registration fee to the address shown over. Your registration form will not be accepted until the correct information and fee has been received.

If you have further queries, please phone (03) 543 8400.
