**5. Masterplan 1-5 year progress review and plan of works – ....**

Discussion on priorities in Masterplan and how the different areas in the plan work together. Andrew Butler updated on engagement of Davis Ogilvie to undertake investigations on boat ramp.

**6. General Business**

**Grossi Point** – Discussion about moving forward with the development of the Cultural Heritage Plan for Grossi Point. Amai Thompson outlined the iwi lack of capacity and resourcing issues. He suggested using the TDC kaihatu to facilitate discussion on moving forward and involvement of the other iwi. Amai will talk to other cultural managers and Barney Thomas and come back to Richard Hollier with an approach. In response to a question from David Loe about the name for Grossi Point, Amai talked about the protocols for the naming of areas and layers of occupation at Māpua and other areas. He stated that Māpua had been a former battleground and there were a number of *Urupā* around the Māpua area. It was a difficult area to deal with as each iwi have their own views and these may differ from other iwi.

**Meeting attendance** – there was a short discussion about the lack of attendance at the last two meetings. David Loe undertook to remind attendees by email 24-48 hours ahead of meetings as he had done previously.

Shane Pene closed the meeting with a karakia
