

Schedule of Charges

(Disclaimer: Note that the fees and charges contained in this Schedule may change during the year.)

The Tasman District Council, acting under the Local Government Act 2002, hereby prescribes the following charges. The charges in the middle column shall come into force on 1 July 2010 for the period up until 30 September 2010. The charges in the right hand column shall come into force on 1 October 2010 for the period up until 30 June 2011. The charges shall remain in force until amended by Council resolution. Council may amend the charges by resolution during the year.

- Dog registration fees have been increased an additional one dollar per dog to cover increased costs of operation. The Council policy is to fund the costs of dog control entirely from the dog registration fee.
- Development Contributions have been adjusted down in line with the cost escalation provisions in the Development Contributions Policy using the March Construction Industry Group Input figures in the Producer Price Index.
- Charges from 1 October 2010 have generally been increased to reflect the Government's decision to raise the GST percentage from 12.5 percent to 15 percent (with some rounding).

Summary of Changes:

Apart from inflation adjusting the 2009/2010 charges (with some rounding), the main changes reflected in the 2010/2011 Schedule of Charges are:

- New additional administration charge for lost or damaged library books.
- New cemetery charges for natural burial plots and memorial wall plaques.
- Deposits for resource consents have been increased to recover more income upfront and minimise transaction costs and Council's exposure to delays in recovering costs.
- Fees for registered premises (e.g. food outlets and hairdressers) have been adjusted to better reflect effort involved. This has resulted in some reductions as well as proportionate increases in the amount to be charged for some categories of premises. A 'late payment' fee has been introduced to minimise effort required to chase recovery of monies owing.

General Rules Applying in Respect of Charges
Charges will include all staff time associated with processing and assessing applications, excluding staff travel time to and from the site of the application and/or consent holder. Staff time will be charged at \$128.00 per hour inclusive of overhead component and GST from 1 July to 30 September 2010 and \$130.00 per hour inclusive of overhead component and GST from 1 October 2010. Additional costs associated with consent processing and assessment such as use of consultants and laboratory costs, where these skills cannot be provided by in-house staff, will be recovered at actual costs. This policy also applies to the monitoring of consent conditions where an annual charge is not made or where costs exceed the payable annual charge and Council elects to recover the difference.
Annual charges shall be due on 1 December or 30 days from the date of invoicing, whichever is the later, unless otherwise agreed in writing by Council.
Where all or part of any deposit or charge is not paid beforehand, Council will reserve the right not to process that application in accordance with relevant statutory powers. Council reserves the right to invoice for work done in excess of any deposit fee paid.
Reductions and waivers are generally not available. Reductions might be justified where the person liable to pay any charge reduces the costs to Council of carrying out its functions, including through self-regulation checks approved by Council.
There will be no charge on parties who choose to surrender a resource consent and provide written confirmation.
Where multiple resource consents are sought or required for related activities, the standard application lodgement fees (deposits) shall apply for each consent, except that the notification lodgement fee shall comprise one full deposit (\$5,000) plus 20 percent for each accompanying application, provided that the Manager Consents or the Environment and Planning Manager have discretion to determine a lesser total lodgement fee when there are large numbers of separate consents required.
A 50% rebate applies to the annual charges for consents with consent-specific monitoring programmes where monitoring costs are being recovered separately. Specific arrangements will be made in relation to approved self-regulation inspections.
A \$25.00 (GST inclusive) discount applies per consent to dam where the consent holder also holds additional permits for a surface water take.
A 50% discount applies to permits to take water if the take only occurs between May and October and goes to storage
Where a consent is being renewed and the activity is continuing, the applicant shall continue to be liable to pay any annual and/or monitoring charge.
Hydroelectric power generation, suction dredging, and land based fish farming annual charges will be based on the discharge and not the take as long as the take and discharge are of equal volume. If there is a consumptive off-take then that portion of the take will attract the annual charge as for other consumptive takes. Consents to take will still attract the minimum standard water permit annual charge.
Annual charges levied on holders of resource consents will be recovered whether permits are exercised or not.
The cost of Councillor hearing panels are set by the Remuneration Review Authority and will be charged accordingly. Commissioner costs shall be charged at actual costs incurred. Where submitters request that a matter proceed to a hearing before Commissioners they shall meet the costs additional to those incurred had the matter have been heard by a panel of Councillors on the same time basis.
