SUBJECT: Monthly Report

OLD CLOCK

Nothing further here has happened as I was attempting to get hold of the owner of the old post office with the view to placing the clock back up here. On going maintenance of the clock and power payments are a concern that need to be addressed also.

THORPS BUSH PLAYGROUND

The final outcome was to leave the main structure with closing the top platform and attaching new items on to the structure to make it more enjoyable and also useable to the children. I have identified which items will be included but not ordered I wish to complete Eginton Park (which is in but bark to be spread) and complete the upgrade at north street reserve. Also I have ordered a new playground item for Richards Reserve to replace the old Tramp that we removed this should be in within about four weeks.
