

# STAFF REPORT

**TO:** Motueka Community Board  
**FROM:** Reserve and Assets Projects Officer  
**DATE:** 15 July 2005  
**SUBJECT:** Decks Reserve Footpath Construction

---

As part of the ongoing development for Decks Reserve, a footpath leading around the Reserve is to be constructed. I was looking to carry out this construction in the near future.

I have obtained basic footpath construction prices from local contractors but feel this footpath could become more of a feature for the town with some added features.

What I had in mind was laying a type of plaque in the footpath surface that supplied some information about a period in time from the history of Motueka.

To achieve this I was looking to call on the following committees to help provide appropriate information for each of the plaques. The most effective way would be for each committee to nominate one member to be involved in the working party:

- Motueka Community Board
- Motueka Museum
- Our Town Motueka
- Schools
- Local iwi
- Motueka and Districts Historic Society
- Good Sports Motueka
- Keep Motueka Beautiful
- Tasman District Council
- Arts Council
- Motueka Streetscaping Committee
- Tasman District Council Library

## RECOMMENDATION

That the Motueka Community Board supports the concept for the Decks Reserve footpath and the involvement of the various committees to help provide historical information.
