

STAFF REPORT

TO: Motueka Community Board

SUBJECT: Monthly Report

I would like to thank everyone who has supported me these last three years. I have thoroughly enjoyed the challenges that have come our way.

I strongly believe that there is a place in the Motueka Ward for a Community Board. It is all about decisions being made at grass roots level. Flood protection, sustainable water supply, future planning are some of the issues that need to be kept at a high level of priority for the new Board.

I wish the new Board well for the future.
