## 5.2 ROADING

### 5.2.1 Flood Damage

The flood damage expenditure for the 2004/2005 financial year to date is \$1,193,000. To date, all but \$140,000 has been expended with all works being completed by 30 June 2005. The Waireka Bridge has now been reinstated.

### 5.2.2 Transit/Tasman District Council Collaboration

The Committee will note from the attached letter that Land Transport NZ have approved our application to extend the roading professional services contract with MWH NZ Ltd until 30 June 2006. This approval allows Council to properly consider the collaboration model and move towards a possible joint venture in the 2006 calendar year.
